

Project Scope

Review and update the shopfitting qualification and units of competency to align with current vocational outcomes and address emerging industry trends, technology, new building methods up to date shopfitting information and industry requirements.

Develop a national stakeholder contact list, engagement activities and processes, capture and collate details of stakeholder suggestions, feedback, recommendations.

Maintain accurate records of stakeholder consultations, discussions and actions or issues requiring resolution, which contribute to the outcome of the project.

Transition components to comply with the *Standards for Training Packages 2012* and present Case for Endorsement for submission to Australian Industry and Skills Committee (AISC)

Project Summary

This project will undertake the following activities:

- research, collect and compile trade and training data
- schedule and participate in national consultation with stakeholders
- compile gathered information and prepare components for validation
- review and complete documentation for endorsement

Key points

- As there is no Technical Advisory Group being established for this project a small team of Subject Matter Experts (SME) will be established to advise and provide input into key aspects of drafting this qualification prior to industry consultation.
- The Project Manager will source and invite experienced stakeholders to join the group.

Consultation Progress

The key engagement methods undertaken to date are:

- draft qualification structure and confirm inclusion of units of competency (with input from SME)
- notify, invite and engage with industry representatives, employers, training providers, STAs and other associated stakeholders
- conduct national face-to-face forums
- publish information on web site and seek online feedback
- conduct online surveys
- facilitate online forums

Project Timeline

Stage 1	Project commencement	23 September 2018
Stage 2	Round 1 of industry consultation and training package development	October 2018
	Round 2 of industry consultation and training package development	November 2018 – January 2019
Stage 3	Validation consultation	January 2019
Stage 4	Quality assurance phase	February – March 2019
Stage 5	STA endorsement	April 2109
	Case for Endorsement submitted to Department of Education and Training	May 2019
