

QUALIFICATION CODE CPP20120

QUALIFICATION TITLE Certificate II in Surveying and Spatial Information Services

QUALIFICATION DESCRIPTION

This qualification applies to those undertaking pre-vocational programs or entering the workforce and working under close supervision and possibly assisting in simple surveying or spatial information services activities. They can operate in the field and may use a computer to assist in collecting storing and retrieving basic spatial data.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

ENTRY REQUIREMENTS

There are no entry requirements for this qualification.

PACKAGING RULES

To achieve this qualification, competency must be demonstrated in 8 units of competency consisting of:

- 4 core units
- 4 elective units.

Electives are to be selected as follows:

- 4 units from the elective units listed below
- up to 2 units may be selected from current training package qualification or accredited course provided they contribute to a valid, industry supported vocational outcome, maintain the integrity of the AQF level of this qualification and do not duplicate the outcome of another unit used to achieve the qualification.

Core

[CPCCWHS1001](#) Prepare to work safely in the construction industry

[CPPSIS2012](#) Assist in collecting basic spatial data

[CPPSIS2013](#) Store and retrieve basic spatial data

[CPPSIS3011](#) Produce basic maps

Elective

[AHCNAR307](#) Read and interpret maps

[BSBSUS201](#) Participate in environmentally sustainable work practices

[BSBCMM201](#) Communicate in the workplace

[CPPSIS3015](#) Collect basic surveying data

[CPPSIS3019](#) Produce basic plans of surveys

[CPPSIS3020](#) Perform basic surveying computations

[ICTICT203](#) Operate application software packages

<u>CPPSIS2015</u>	Assist with surveying and spatial field activities
<u>CPPSIS2016</u>	Assist with load transfers
<u>ICTICT101</u>	Operate a personal computer
<u>ICTICT102</u>	Operate word-processing applications
<u>ICTICT105</u>	Operate spreadsheet applications
<u>ICTICT203</u>	Operate application software packages
<u>ICTICT210</u>	Operate database applications
<u>ICTICT211</u>	Identify and use basic current industry-specific technologies

QUALIFICATION MAPPING INFORMATION

The CPP20120 Certificate II in Surveying and Spatial Information Services supersedes and is / is not (TBC) equivalent to the CPP20116 Certificate II in Surveying and Spatial Information Services.

Modification History

formal education, or those who may have language, literacy and numeracy needs.

April 2020

At the webinar held 3 April 2020, this qualification was supported for its potential to provide for learner cohorts such as those undertaking vocational education and training as part of secondary school, those who may have interrupted formal education, or those who may have language, literacy and numeracy needs. It was also identified as having been requested for delivery by a large enterprise to meet the training needs of indigenous learners. The previous recommendation to delete the qualification was reversed.

As NCVER data suggests negligible use of this qualification, evidence of industry support (such as letters/emails) for its retention is required to be included in the Case for Endorsement to be considered by the Australian Industry Skills Council.

Artibus suggests that the elective unit [CPPCM3006](#) *Provide effective client service* is too high a level for the qualification and potential learners and that it be replaced with [BSBCMM201](#) *Communicate in the workplace*

Artibus suggests that the elective unit [RIISTD201D](#) *Read and interpret maps* be replaced by [AHCNAR307](#) *Read and interpret maps*. Context of AHCNAR307 is more appropriate for surveying and spatial.

The four CPPSIS units unique to the Certificate II are no longer proposed for deletion.

November 2019

Qualification proposed for deletion. There is no vocational outcome as it is 'pre-vocational'. Not recognised or needed by industry.

The four units below are proposed for deletion as the task is not required by industry.

CPPSIS2012	Assist in collecting basic spatial data
CPPSIS2013	Store and retrieve basic spatial data
CPPSIS2015	Assist with surveying and spatial field activities
CPPSIS2016	Assist with load transfers.
